

# Intro To Topographic Maps

- 1) What is a Topographic Map?
- 2) What is a contour line?
- 3) Label each contour line with its correct elevation on the Map
- 4) What is the Contour Interval of the Map?
- 5) What is the highest and lowest point (elevation) on the Map?
- 6) Circle the steepest slope on the map.
- 7) What is the elevation of Point A and Point B?
- 8) What is the distance (in kilometers) from Point A and Point B?
- 9) What is the gradient from Point A and Point B?
- 10) What is a Benchmark?
- 11) Please list the Elevations of the 3 benchmarks.
